

The Game of Pipes Rules

How to Play

1. Select a game piece and begin at "Start."
2. Each player starts with 150 gallons of water. (Your teacher may adjust this.)
3. Roll the die and move the designated number of spaces.
4. Using the number in the space, refer to your action list to determine how many of gallons of water to add or subtract and which move to make next
5. Pass the die to the next player

How to Win:

Be the first to make it to Blue Plains Advanced Wastewater treatment Plant.

- Or --

Have the most gallons of water left at the end of the game.

The Game of Pipes Action List

1. You ran the faucet to get one glass of water. Subtract 3 gallons and move backward one space
2. You bought a pitcher for drinking water. Add 3 gallons and move forward one space
