

Do you have lead pipes?

YOU MAY QUALIFY FOR A FREE OR DISCOUNTED REPLACEMENT, REGARDLESS OF INCOME!

Save 50% to 100% on costs, on average \$2,500

The Lead Pipe Replacement Assistance Program (LPRAP) helps District residents replace lead service lines that connect the city water supply to their household plumbing.

- At some homes, the public portion of service pipe was replaced, though lead pipe remains on private property.
- All property owners with a lead pipe on private property and non-lead in public space can apply for a 50% discount.
- Some property owners will be eligible for 80% to 100% coverage depending on household size and income.
- Learn more about all of our lead pipe replacement programs at dcwater.com/replacelead and enroll today!

Customers can email lead@dcwater.com or call **(202) 787-4044** to determine if they have lead pipes, then call **311** or visit dcwater.com/lead-assist to apply for discounted replacements.

Lead Pipe Replacement Assistance Program (LPRAP)

(for customers with lead pipe on private property, and non-lead pipe in public space)

LPRAP INCOME LIMITS BASED ON AREA MEDIAN INCOME (AMI)			
% of costs covered	100% of cost*	80% of costs**	50% of costs***
Size	< 80% AMI	80% - 100% AMI	ALL ELIGIBLE PROPERTY OWNERS REGARDLESS OF INCOME * households with income below 80% AMI and whose tenants participate in federal or District housing programs ** 80% of the first \$2,000 replacement costs, and 100% beyond that *** assistance capped at \$2,500
1	\$67,950	\$67,950 - \$84,900	
2	\$77,650	\$77,650 - \$97,050	
3	\$87,350	\$87,350 - \$109,150	
4	\$97,050	\$97,050 - \$121,300	
5	\$104,850	\$104,850 - \$121,300	
6	\$112,600	\$112,600 - \$121,300	
7	\$120,350	\$120,350 - \$121,300	
8	\$121,300	\$121,300	

Why replace lead?

Lead pipes of any length can release lead into clean drinking water. Elevated lead levels can cause serious health problems, especially for pregnant women and children.

Do I qualify?

Every property owner with a lead pipe on private property and non-lead pipe in public space is eligible for a 50% discounted replacement. Some property owners will be eligible for 80% to 100% coverage depending on household size and income. Eligibility is determined by the Department of Energy and Environment (DOEE).

How do I apply?

Customers can apply at dcwater.com/lead-assist. Residents seeking discounts of more than 50% will need to provide income verification documents. Property owners must provide a quote for proposed work by a DC-licensed plumber or contractor with application. Guidance for project work is available at dcwater.com/LSR-guidelines.

For more information, or to apply, email leadline.replacement@dc.gov or call **311**.

NOTE: Filter water used for drinking and cooking until all sources of lead have been removed. Ensure the filter is NSF-53 certified for lead removal.
