## Appendix B: Additional Monitoring Data

Tables B.1 and B.2 present results from the second draw samples collected at the time of the Lead and Copper Rule compliance sampling. Additional monitoring data presented in Attachment 2 to this report contains sample data collected from other DC Water programs that focused on lead, copper, or other metals that included lead sample results. A description of the program followed by the data set is included in Attachment 2.

Notes:

<sup>1</sup>The customer identified the point-of-entry pipe as copper in the previous semester, however, did not submit a picture. DC Water recently analyzed over 700 reports of point-of-entry pipe and found the customer often reported the pipe material as a point-of-entry pipe when the pipe coming through the wall or floor was not visible. Therefore, we changed the pipe material from “partial lead” to “lead” due to the inaccuracy of customer reports and no supporting documentation. We also revised our plumbing questionnaire to clarify the pipe must be visible breaking through the wall or floor.
